

Green Share

Our Impact:
60'000 kg CO2~ saved
through reuse and
reduction since 2022.
This benefitted more
than 1200 local
organisations &
citizens.

This project by the Swiss non-profit GreenUp empowers event circularity in Davos alongside the week of WEF's Annual Meeting, and gives back to the Davos Community year-round.

What we offer:

GREENSHARE PARTNER

Join GreenShare by choosing at least one of our circular services. Our partner list is shared with the Gemeinde Davos

a) REUSE AND LOCAL SHARING: For **350 CHF per event location** we collect your left-over items (good, non-branded carpets, wood, furniture, electronics, decoration, etc) and give them out for local donation. We will provide an impact report that includes also CO2-measurement. Just want to share your items and not receive an impact report? Bring them by for free.

b) "BAG IT" PILOT: Reduce packaging waste BEFORE the events! For 12CHF we provide and pick-up Big Bags for direct reuse of your plastic & cardboard packaging materials together with local recycling company Bühler (minimum 5 BigBags).

PLUS, benefit for free from:

- **DIRECT PEER-SHARING:** Direct access to our **NEW event company sharing platform** for items and materials.
- **RENTAL: 10% discount** on rentals in Davos for new clients on Party Rent

CONSULTANCY AND SUPPORT

We are happy to support you for the implementation of circular and sustainable event concepts; customised to your needs.

GreenShare is a project by the swiss non-profit GreenUp to make circularity happen. GreenUp is tax-exempt and empowers action for a regenerative future. GreenShare is supported by the World Economic Forum and the city of Davos, as well as several sponsors. Since 2022 we worked with over 20 (event)companies to achieve tangible impact.
